## Video DVD Productions

Living portraits of family, children, weddings, anniversaries, vacation, birthdays, memorials and other events can be created with creativity and style, recreating your memories with emotion and care.

This is not your standard slide show of photos, but moving images that capture your memories to film or DVD for generations to enjoy.

Your finished video plays just like a retail video DVD with navigation menus and chapters. You can also play, pause and advance through the video using your remote control.

Other services would include transfer of your older formats such as VHS videotapes, slides or prints to DVD. Rates will vary depending on the scope and complexity of the project.

## Capture your memories to last a lifetime

### Video DVD Productions: Pricing

<b>5 minutes of Video</b>	<b>\$69.95</b>
<b>15 minutes of Video</b>	<b>\$199.95</b>
<b>30 minutes of Video</b>	<b>\$461.95</b>

Includes use of simple transition effects (crossovers, & fade outs) and music (supplied by client).

Special effects or animation have additional charge depending on the frequency, complexity and duration of effects.

## Video Checklist

For a standard 15-minute presentation a 3 to 4 weeks service time is recommended once all assets (video and photos) are received. More time would be needed for longer presentations or where more elaborate video effects are wanted. No rush orders unless they are for video presentations running 10 minutes or less.

Use the following checklist as a guideline to the information and materials that will be needed to produce your video presentation.

### Information Gathering for Video presentations:

- What length of a video presentation are you wanting? Length in Hours: \_\_\_\_\_ Minutes: \_\_\_\_\_
- Are you supplying any video footage? # of tapes: \_\_\_\_\_ (must be MiniDV tapes or VHS) \*\*
- Are you supplying photos? # of photographs: \_\_\_\_\_ \*\*
- Are you supplying negatives? # of negatives: \_\_\_\_\_ (35mm or slides only)
- Do you require that photos or negatives be scanned? Yes: \_\_\_\_\_ No: \_\_\_\_\_
- How many copies of the video presentation do you need: \_\_\_\_\_
- What format do you want the final video? DVD: \_\_\_\_\_ VHS: \_\_\_\_\_
- Do you want a protective case for your DVD or VHS tape? Yes: \_\_\_\_\_ No: \_\_\_\_\_
- Do you want labels for the case? Yes: \_\_\_\_\_ No: \_\_\_\_\_
- Do you want labels on the DVD disc? Yes: \_\_\_\_\_ No: \_\_\_\_\_
- What is the Theme of your video and does it tell a story or have a timeline?  
\_\_\_\_\_  
\_\_\_\_\_

\*\* If you are supplying video footage on tape, please include a sheet of paper with a numbered list of tapes (tapes should be numbered as well) with timecodes indicated ( in hours, minutes & seconds) of the footage you want used.

If you are using photographs and want them to appear in a certain order, please indicate that order on a sheet of paper and include a corresponding number on the back of each photo. You can also group the photos as you want them to appear on the video. Scan all photos at 150 to 300 dpi (minimum of 72 dpi) saving them in the .jpeg format and copy them to a CD.
